FLO PROGRAM

The Fusion Liaison Officer (FLO) program is the development and coordination of a network of officers from local or regional law enforcement, fire service, public health, and other agencies such as public works, corrections and emergency management. The network of FLOs ensures that vital disciplines are incorporated into the fusion process and serve as the conduit through which homeland security and crime related information flows to the fusion center for assessment and analysis through the state homeland security Regional Intelligence Groups. The FLO program serves as an integral component of the Statewide Integrated Intelligence System (SIIS) and provides the mechanism to gather and analyze information, and share actionable intelligence.
