The instructors mentioned a certificate of completion with both classes listed will be mailed to me, does that sound right? They only had a certificate for me with the chemical munitions course listed on it.

Yes, we will do that.

So both courses should have been enrolled at the same time. I paid for the chemical munitions course out of pocket. The department was paying for the impact munitions course.

Can you please just invoice the department?

Hi Nathan,

We just recently received back paper work for the course you attended in Olympia, WA. We had you originally scheduled for the Chemical Munitions and you had sent payment at the time of registration. I see you decided to attend an additional course for the Less Lethal Munitions course, as well. Which is totally fine. We just need payment for that course. I wanted to see if you wanted to send payment or if you wanted us to charge your card we previously use for the other course? Let me know or we can just invoice you.

Thanks,
Noami Davis
